Dear Sirs

**ADVANCE NOTIFICATION OF ROAD IMPROVEMENTS  
SCHEME: 0184 – Greetwell Road, Lincoln - Improvements**

I am writing to update you regarding the current Greetwell Road Lincoln roadworks.

Unfortunately due to additional utility work being required over the original planned works the end date of the roadworks has been delayed. The work was expected to finish on the 30<sup>th</sup> April but now has an expected end date of 14<sup>th</sup> May.

Additionally cost savings have been identified that have allowed us to extend the planned resurfacing work to cover the mini-roundabout itself which is showing signs of wear and tear. This work won't add to the schemes overall duration and will avoid the need for a future visit to the area.

As such the current Diversion route and Eastbound closure on Greetwell Road will remain in place until the 14<sup>th</sup> May along with the closure of Greetwell Fields (locally known as the bunny run). The expected dates of the night-time full closure under which the final surfacing is to occur is to be moved to be around 7<sup>th</sup> - 14<sup>th</sup> May although this is dependent on progress.

We apologise for the delay and are working to finish as soon as possible.

Your co-operation and understanding during these works is appreciated but should you have any specific needs or requirements or require further information, please do not hesitate to contact me on the telephone number given above.

Yours faithfully

Bruce McIntyre  
for Group Manager (Design Services)
